TABLE OF CONTENTS

MODULE 1: What is the Nature of Quantitative Research?

LESSON 1: What are Quantitative Research and its Importance?

5

Defining Quantitative Research

6

Health and Medical Sciences

6

Business and Marketing

7

Human Resources Management

7

Social Sciences

8

Political Science and Politics

8

Demography

9

Psychology

9

Economics

10

Natural Sciences

10

LESSON 2: What are the Characteristics and Steps in Conducting Quantitative Research?

15

Nature of Quantitative Research

15

Quantitative vs. Qualitative Research

16

Characteristics of Quantitative Research

18

Strengths of Quantitative Research

19

Weaknesses of Quantitative Research

20

Steps in Conducting Quantitative Research

21

LESSON 3: What are the Types of Quantitative Research?

29

Types of Quantitative Research

29

Descriptive Research

30

Observational Research

31

Survey Research

31

TABLE OF CONTENTS

Correlational Research	31
Quasi-Experimental Research	33
Experimental Research	34
LESSON 4: What is a Research Variable?	39
Nature of Research Variables	39
Independent and Dependent Variables	40
Other Variables	41
Scales of Measurement	43
Nominal (Categorical) Data	43
Ordinal Data	45
Interval Data	45
Ratio Data	46
LESSON 5: How Do You Develop the Research Questions from the Research Topic?	51
Establishing the Statement of the Problem	52
Developing the Research Question	53
Writing the Research Question	54
MODULE 2: How to Identify the Inquiry and Review the Literature?	61
LESSON 6: What are the Scope, Limitations, and Delimitation of a Quantitative Research?	65
Scope	66
Limitations	66
Delimitation	68
Assumptions	69
LESSON 7: How Do You Develop and State Quantitative Hypotheses?	73
Quantitative Hypotheses	73
Stating the Null and Alternative Hypothesis	74

LESSON 8: What are the Ethical Guidelines in Quantitative Research?	79
Scientific Misconduct	80
Importance of Ethics in Research	81
Ethical Standards	82
LESSON 9: What are the Different Citation Styles in a Quantitative Research?	87
Institute of Electrical and Electronics Engineers (IEEE) Style	89
American Psychological Association (APA) Style	91
American Medical Association (AMA) Style	94
Modern Language Association (MLA) Style	97
LESSON 10: How Do You Write a Review of Literature?	105
Goals of a Literature Review	105
Steps in Formulating a Literature Review	106
MODULE 3: How to Properly Conduct Quantitative Research?	113
LESSON 11: How Do You Develop the Conceptual Framework?	117
Defining the Conceptual Framework	117
Developing a Conceptual Framework	118
LESSON 12: What are Experimental and Quasi-Experimental Research Designs?	123
Experimental Research Design	124
Factors in Using an Experimental Research Design	124
Quasi-Experimental Research Design	125

LESSON 13: What are the Sampling Methods in Research Design?	131
Population, Sample and Sampling	132
Probability Sampling Methods	132
Simple Random Sampling	133
Systematic Sampling	133
Stratified Random Sampling	133
Cluster Sampling	134
Non-Probability Sampling	135
Convenience Sampling	135
Quota Sampling	135
Snowball Sampling	135
Purposeful Sampling	136
Determining the Sample Size	136
LESSON 14: How Do You Select the Research Instruments and Test Validity?	141
Research Instruments	141
Tests	142
Survey Questionnaires	142
Interviews	143
Focus Groups	144
Observation	144
Obtaining Existing Data	145
Validity and Reliability of Research Instruments	145
LESSON 15: How Do You Perform Data Collection in Quantitative Research?	149
Conducting Interviews for Data Collection	150
Designing Survey Questions in Questionnaires	150
Open-Ended Questions vs. Closed-Ended Questions	151
Nominal Scale Questions	152
Ordinal Scale Questions	152
Mixed Methods for Data Collection	155

MODULE 4: How Do You Write and Present Your Quantitative Research Findings? 159

LESSON 16: How Do You Process and Organize Data? 163

Data Processing	163
Techniques in Data Preparation	164
Data Recoding	165
Fixing Structural Errors	165
Handling Missing Data	165
Visualizing Quantitative Data	166
Types of Data Visualization	166

LESSON 17: How Do You Analyze Quantitative Data? 173

Descriptive Statistics	173
Measures of Distribution	174
Measures of Central Tendency	174
Measures of Variation	176
Cross-Tabulation	176
Inferential Statistics	177
Hypothesis Testing	178
Statistical Methods in Hypothesis Testing	180

LESSON 18: How Do You Write and Present Your Quantitative Research Findings? 185

Writing and Presenting Results and Discussion	185
Writing the Conclusion	188
Writing the Recommendations	188

LESSON 19: How Do You Write a Quantitative Research Paper? 193

Title	194
Abstract	194
Introduction	194
Review of Literature	195

Data and Methods	196
Sampling and Sampling Methods	196
Research Instruments	197
Results and Discussion	197
Observational and Experimental Quantitative Research	198
Conclusions and Recommendation	198
References	198
Citation Guidelines	199
Appendices	200
Other Considerations	200
LESSON 20: How Do You Present Your Research to an Audience? How Do You Create a Research Poster?	205
Preparing for a Successful Presentation	206
Preparing the Presentation Slides	207
Research Poster	208
KEY TERMS	213
REFERENCES	215
