# TABLE OF CONTENTS

|                                                                                     |           |
|-------------------------------------------------------------------------------------|-----------|
| PREFACE .....                                                                       | iii       |
| <b>UNIT 1 CHEMISTRY CONNECTIONS .....</b>                                           | <b>1</b>  |
| Module 1 The Origin of Everything .....                                             | 2         |
| Lesson 1: How Elements are Formed? .....                                            | 3         |
| Lesson 2: How Elements are Synthesized<br>in the Lab? .....                         | 10        |
| Module 2 Materials and Molecules.....                                               | 17        |
| Lesson 3: How polarity influences<br>the properties of matter? .....                | 18        |
| Module 3 Stick With You.....                                                        | 29        |
| Lesson 4: How intramolecular forces influences<br>the properties of compounds?..... | 30        |
| Module 4 The Molecules of Life.....                                                 | 41        |
| Lesson 5: Why biological molecules are essential<br>to life functions? .....        | 42        |
| Module 5 Collision Theory and Chemical Reactions.....                               | 53        |
| Lesson 6: How chemical reactions occur?.....                                        | 54        |
| Lesson 7: Is the amount enough to make a product? .....                             | 59        |
| Module 6 Household Cleaning Products .....                                          | 73        |
| Lesson 8: What ingredients are found<br>in cleaning product?.....                   | 74        |
| <b>UNIT 2 PHYSICS RULES MATTER .....</b>                                            | <b>83</b> |
| Module 1 Comparing Early Models of the Universe.....                                | 84        |
| Lesson 1: What are the early notions<br>about the universe? .....                   | 85        |
| Lesson 2: How do the planets move in space? .....                                   | 105       |
